Not maintaining a safe work environment	We interviewed 10-12 workers on the day. We asked for the thermometer and humidity measurement, tip top was unable to give us the exact reading of the temperature and humidity of the room air . Workers reported feeling very hot in a very hot days since the air conditioner is not working properly, and in one area near bread sclicing and rolls area, it wasnt working. Fans inplace in some areas specially near rolls baking area blow hot air, workers complained feeling really hot.	No
Inadequate monitoring of the health of workers and the conditions at the workplace	think uniform- not suitable to wear in hot weather neck jelly - not useful to cool down, it gets warmer very quickly	No
