

Asbestos Assessor Self-Assessment Tool

This self-assessment tool is for Asbestos Assessors to ensure they are complying with legislation, to prepare for upcoming site audits conducted as part of the Construction Priority Harms Campaign. This checklist contains questions like the ones on the audit tool used by our Inspectors.

Licensed Asbestos Assessor	Compliant		Comments	Legislative Reference
Are you using an adequate number of Air Monitors for the asbestos removal area?	Yes	No		Regs: 475
Are the Air Monitors operational?	Yes	No		Regs: 475
After the completion of asbestos removal work, is the site free of any visible asbestos contamination (dust and debris)? Ensure you issue a clearance certificate to the person who commissioned the work prior to the area being re-occupied. No verbal clearances are to be given.	Yes	No		Regs: 473, 474
Have you been provided the asbestos removal notification number (if applicable)?	Yes	No		Regs: 467
