

July 2016 Compliance Activity Report

Government
of South Australia

SafeWork SA

Public administration and safety

This report covers people working in state and local government including:

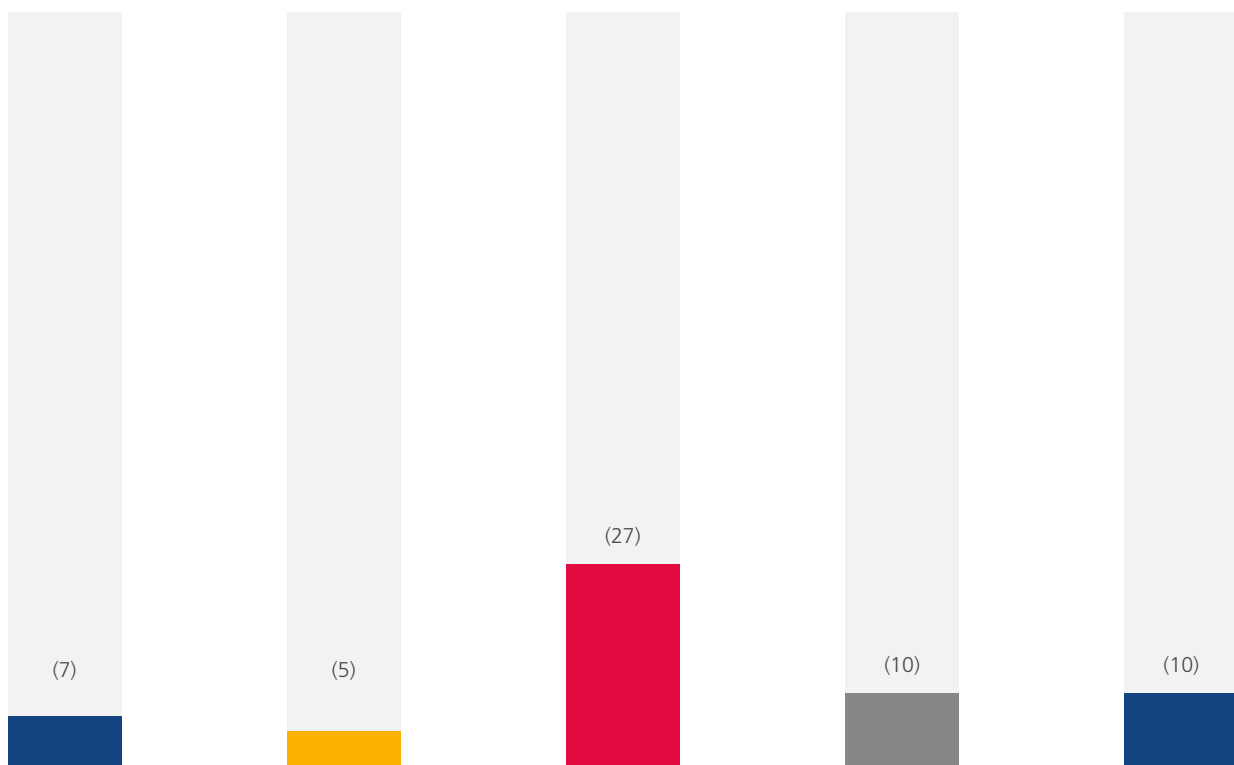

- police, investigation and security services
- fire protection and emergency services
- correctional and detention services
- regulatory services.

SafeWork SA's inspectors ensure work health and safety and public safety standards are met with appropriate action taken as breaches of laws are detected.

In July a local government council undertaking excavation works came to our attention for damaging underground services.

Striking underground services is dangerous and can be fatal. Using Dial Before You Dig services (Phone 1100) supplemented with additional methods of identifying underground services, such as experienced operators using underground asset-locating devices, is advised.

Report work health and safety issues to SafeWork SA on 1300 365 255 or help.safework@sa.gov.au.
