Let's Talk Safety

New and young workers

A hand-drawn illustration of a sign that says 'WELCOME' in a green field. The sign is drawn with thick, dark lines and is set against a white background that looks like a torn piece of paper. The word 'WELCOME' is written in a simple, hand-drawn font.

Some hazards may seem obvious to you, but not to someone new to our workplace. Talk about safety hazards with new and young workers, to help prevent incidents and injuries.

Work health and safety is everyone's responsibility.

Slips, trips and falls

Slips, trips and falls are the second most common cause of workplace injury. Help prevent them by wearing correct footwear, reducing wet and slippery surfaces, and clearing obstacles.

Work health and safety is everyone's responsibility.

Hazardous manual tasks

Manual tasks are the most common cause of workplace injury. Reduce your risk by thinking about the safest way to lift, carry, push, pull, hold, restrain or perform repetitive tasks.

Work health and safety is everyone's responsibility.

Hazard identification

If you spot a hazard or dangerous practice in our workplace, talk to someone about it or report it. To help prevent incidents and injuries, don't let work start without finding and fixing any safety risks.

Work health and safety is everyone's responsibility.
